

# Why is the Department of Government Efficiency D.O.G.E. important???

DOGE is on target to identify **1 Trillion dollars** in wasteful spending!!!

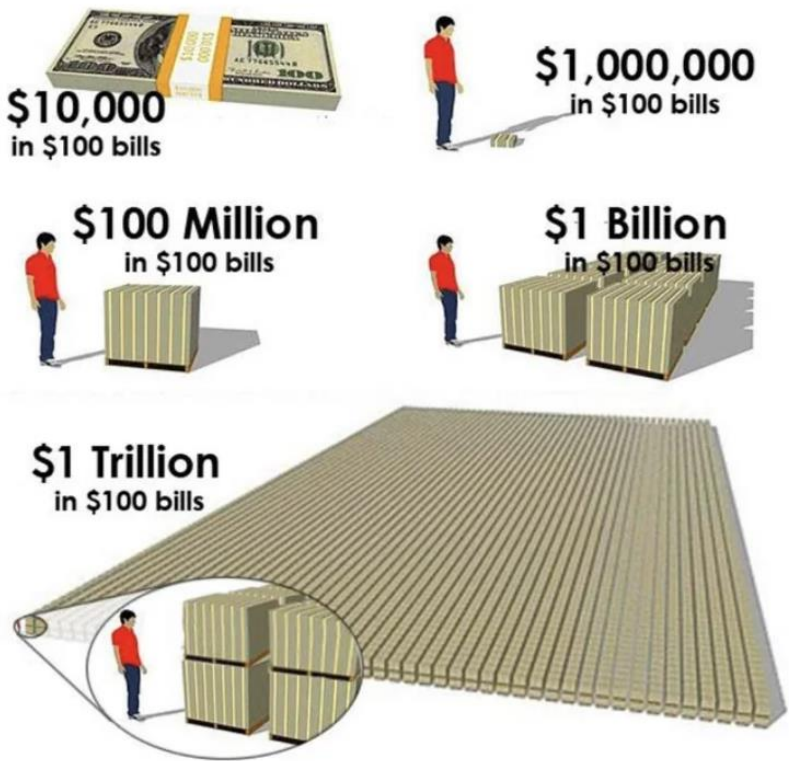

- Congress
- Senate
- Government
- Democrats

- The government spend 6,134,000,000,000 Trillion dollars in 2023.
- Guess what is worse than the dollar amount in waste?

The government inefficiencies prevent you from becoming the **best** version of yourself...

8 Types of Waste	
Defects	Errors or imperfections in products or services that require rework or replacements.
Overproduction	Producing more than is needed or before it's needed.
Waiting Time	Time wasted when processes or people are idle due to delays or bottlenecks.
Non-Utilized Talent	Underutilizing employee capabilities, talents, and ideas.
Transportation	Unnecessary movement of products or materials that adds no value to the customer
Inventory	Excess raw materials, work-in-progress, or finished goods that aren't immediately needed.
Motion	Unnecessary movement of people, machinery, or equipment that leads to wasted effort.
Extra Processing	Putting more work or effort into a product or service than what the customer values or requires.
